

Vehicle: Toyota Hilux
Year Model: 2005-2013
Product: Auxiliary Battery Tray
Product Code: BT004

Fits up to N70zz 12 inch case battery

1. Battery tray fits into the rear of the left hand passenger side of the vehicle under the bonnet.

4. Align tray with three existing threaded holes in the skirt, place 3 x 4mm bolts in place and tighten.

2. To fit the tray you need to remove a module from the firewall. There are 3 x Phillips Head screws that hold the module to a metal bracket. Remove bracket. Fit module to side of battery tray and fix with the 3 x Phillips Head screws utilising holes in the tray.

3. Sit battery tray into position. The long support leg towards the firewall of the vehicle requires a 6mm nut and washer that you place on from underneath, and tighten..

5. Place J hooks in the holes in tray, lower battery in & place hold down bracket on & tighten down until battery is firm. Place a non nylux nut on the J hook on the guard side. Remove 2 x guard bolts, fit support bracket in position. The bracket fits over the J, then place 1 x 4mm nut on & tighten.

Comes complete with:
1 x 6mm nut & washer
3 x 4mm bolts & nuts
1 x Guard Support Bracket
1 x hold down with J hooks
