

BT025D Fitting Guide

Vehicle: Toyota Hilux SR5
Year Model: 2005-onwards
Product: Auxiliary Battery Box
Product Code: BT025D

Fits up to N70zz 12 inch case battery or
up to 120AH size 4x4 battery.

1. Assemble the bottom plate using 3 x 6mm bolts. Then assemble top bracket using 3 x 4mm bolts & nuts and place battery tray into desired position.

3. Undo existing bolts in the sports bar & re-use to fix bracket at the top of the box.

2. Mark holes and drill being careful not to drill into the tyre. Because the tub liner is not hard against the inner wheel arch you need to hole saw 20mm holes in the tub liner & use 10mm thick spacers between the plate and inner wheel arch and then tighten 3 x 6mm bolts, washers & nuts into place.

4. Sit battery into tray and place battery hold down on the top inner corner of the battery. Put J hooks into the corner holes in the battery tray and through the hold down, then tighten until battery is firmly in place.

Comes complete with:
6 x 6mm bolts & nuts
3 x washers
3 x 4mm bolts & nuts
3 x 10mm spacers
1 x hold down with J hooks
